12.6 [SP] Boats which have started and which sail through a start line in either direction during the race while the orange On Station Flag is up and the Blue Finish Flag is not showing will be disqualified without a hearing, and will be scored DNF. This changes rules 63.1 & A5.

12.7 [NP] **Individual recalls** – After the starting signal the Race Committee may broadcast the sail numbers of boats that have not complied with Rule 29.1. It is the responsibility of a boat to monitor the radio for this information. Failure of the Race Committee to make a broadcast or a boat to receive any broadcast will not be grounds for redress. This changes rule 62.1

12.8 **General recalls** – When a general recall is signalled, the signal will be displayed for 4 minutes only. The warning signal for the first recalled division will be the starting signal for the last division in the original sequence followed by any succeeding recalled divisions. This changes rule 29.2. Failure of the Race Committee to make a broadcast or a boat to receive any broadcast will not be grounds for redress. This changes rule 62.1

12.9 As an indication only, the start sequence is expected to be:

14 THE FINISH

14.1 Jetty Finish

The Finishing line will be an imaginary line between a white PVC mark off the end of the Val St jetty and a mark in the TCYC Tower. (Refer to Illustration below.) This will be designated as “Jetty Finish” in course rounding descriptions

- 15.5** For some specific breaches of the rules, the Race Committee (RC) may apply a standard penalty “SP” without a hearing. The RC may still protest a boat when they consider the SP to be inappropriate. A boat may request redress if it believes the application of the standard penalty to be improper. This changes RRS 63.1 and A5.

- Should an emergency occur on water which endangers sailors (eg-severe or deteriorating weather, or shark sighting) then the PRO/Instructor shall make the decision to postpone, cancel or abandon sailing and immediately instruct everyone to return safely to their mooring or to the closest shore (not necessarily the clubhouse beach). It may be necessary in some cases (small boats – inexperienced

sailors) to take the sailors aboard support craft. If this occurs, then a **BRIGHT GREEN FLOAT** (indicating no-one is aboard this boat) is to be attached to any abandoned boat. Boats shall be retrieved after situation is made safe. Support craft & Tower shall be notified of the situation and instructed to escort boats to safety whilst tower prepares on shore facilities to assist safe return of sailors. Careful monitoring of the numbers on the water are to be accounted for on return to shore by PRO & Tower personnel.

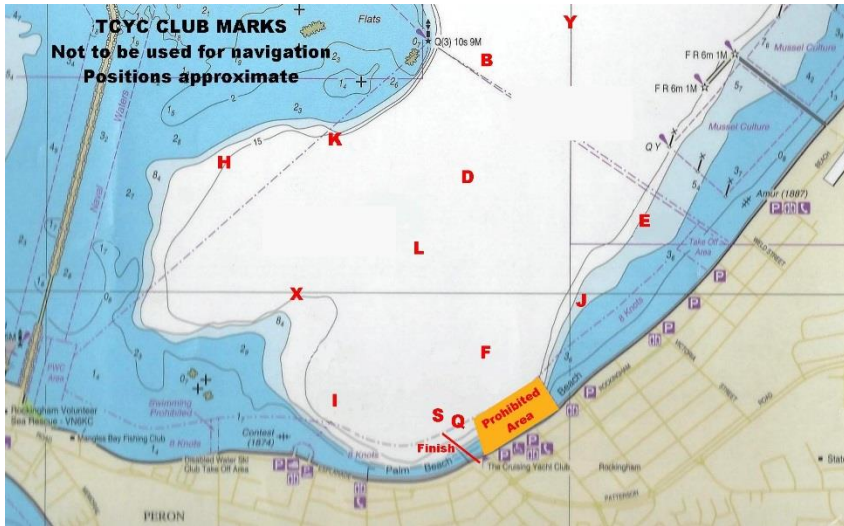

- When an injury to a person is identified, it must be reported to Race Control or their representative taking advice from a First Aider, if possible, then confirm the action to be taken. Disabled boats shall be retrieved after situation is made safe.
- An Incident form shall be completed by the PRO or person attending to the incident. Completed forms shall be given to the Race control and submitted to Rear Commodore or Club Manager for action. Forms are kept in the TCYC club filing box located at the club administration office.

SHARK SIGHTING & ACTION GUIDELINES; (Ref: TCYC Document)

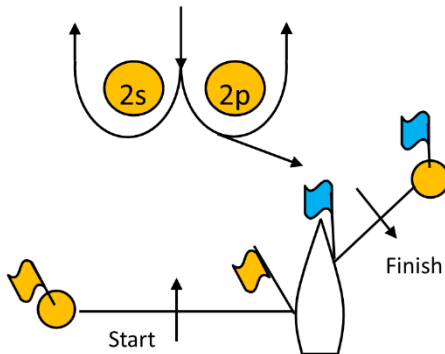

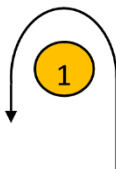

Reliable shark sightings shall be deemed as those issued by approved shark sighting authorities & local sea search & rescue groups, as well as those by boat users in the immediate vicinity of TCYC sailing operations. Dependent on shark size, type & location, the PRO shall act as follows;

1. If a shark is over 3m & within 1 km of sailing operations a radio warning is issued to all boats with radios, while support craft shall be alerted to immediately attend boats without radios & inform them of the situation. Smaller, at risk boats & crews shall return to shore with close attendance of support craft. Depending on the severity of situation it may be necessary to evacuate crew from small boats to support craft until the emergency is over. Larger boats will carry on normal sailing operations unless required to attend as support craft.
2. If a shark is between 2m-3m and within 500m of sailing operations, then the same action above is to be followed.
3. If a shark is less than 2m then notification of all boats shall occur whilst maintaining normal sailing operations. Support craft shall maintain close contact with smaller boats & escort them to shore if the need occurs.
4. Should helicopter shark sighting services be in place and a helicopter hovers over, it will sound a siren to warn water users of a shark sighting in the area. Should this occur then smaller boats shall return to shore and support craft shall escort small boats to shore or safety.
5. No-one shall return to the water until the All Clear is given by the RO.
